To whom it may concern,

Demand CS Insecticide,

- Product description: pesticide insecticide
- Product use: residual control of pests listed in & around domestic & industrial premises & certain food preparation areas & stores

"Passed AsureQuality assessment for food/beverage/dairy factory cat B food areas & no possible contact or outside H2043" with conditions. This assessment was prepared by Global Proficiency Ltd using HACCP principles to determine equivalence with food standards listed below. See <http://assessedproducts.asurequality.com/> This supports food Risk Management Programmes & other endorsements that may apply to this product include MPI regulated farm dairy approval, MPI dairy factory endorsement, MPI regulated non-dairy animal product approvals, EPA HSNO-OSH-environment approval (& previously AQIS).

Conditions:

- Used per instructions & GMP so as to counter food risks from pests & pesticide viz. used outside food / storage areas except where conditions such as spot/ crack-crevice application.(&/ or sealed tube manufacture) ensure no potential contact of residual insecticide with food, food contact surfaces, vents or packaging & no residue risk for fly fall around food.
- All products are used according to Manufacturer's Instructions, Good Manufacturing Practice (GMP), and applicable legislation.
- The assessment is subject to notification of change (e.g. in formulation, raw materials or instructions) and expires on 15/12/2020).
- The full report is attached for supplier review and verification. The assessment is activated by countersigning. .

Prepared by Global Proficiency for AsureQuality Ltd...

Supplier:.....

Date:.....

Scope and purpose of the assessment:

- Asurequality assessment is a non-regulated, voluntary, and evidential certification by the supplier demonstrating equivalence with food safety standards, and also that product instructions address hazards for staff & equipment. The assessment is independently confirmed, without prejudice or guarantee, using information submitted by the supplier or from other sources. Confidentiality of the product formulation is maintained using coded material identifiers in the report, and appendices containing confidential information are provided only to the supplier.
- Scope: NZ checks (FSANZ, US FDA 21 CFR/ NSF, Food Chemicals Codex, EPA NZ, EU, French culinary listings or related data for equivalent safety). NZ background (Animal Products Act, Risk Management Programmes. Detergent & Sanitiser Manufacturer's Code of Practice) Detergent & Sanitiser Standards and Analytical Methods. Quality Manual - Assessment Procedures

Summary of assessment with risks highlighted:

- Prior registrations (MPI & AsureQuality & EPA NZ).
- Food safety (This is by non-contact warnings).
- QA (ISO 9001 unfound not mandatory beyond FCS CIP). QC specs (not mandatory beyond FCS CIP).
 - Instructions
