Registrations
Ridomil Gold SL Asparagus

Asparagus
Use the higher rate if disease was evident during the previous season. Apply in sufficient water to obtain good ground coverage. Ensure that the soil is free of weeds and trash. Light rain or irrigation is necessary to move the fungicide into the soil within 48 hours of application.

**Stage of use:** Apply as an annual broadcast application in early spring prior to spear emergence. During the cutting season, if disease pressure is severe, a repeat application can be made provided it is made the same day immediately after a hard cutting.

Classification and Security

**Re-entry Period**
- • DO NOT enter treated area without protective clothing until spray has dried.
- • 3.1D
- • 6.1D
- • 6.4A
- • 6.9B
- • 9.1C
- • 9.3C

**Hazard Statements**

**Personal Protective Equipment**
- • When mixing or applying, wear protective clothing including face shield, overalls, waterproof gloves and footwear.

Application Advice

**Tank mixing**

When tank mixing with other products, add wettable powders, water dispersible granules and flowables first into the partly filled spray tank and agitate before the addition of the required amount of RIDOMIL GOLD SL and then add the remainder of the water while agitating.

**Water volume**

Apply in sufficient water to ensure thorough and uniform coverage.

**Rainfastness**
2 hours
